8 - INFORMATION ON THE NATIONAL HIGHER EDUCATION SYSTEM

The basic structure of the Turkish National Education System consists of stages of noncompulsory pre-school education; compulsory primary (elementary and middle school) and secondary (high school) aducation, and higher education. Hinary education begins at the age of £5 (56 months), lasts eight years and comprises elementary and middle school education, four years each. Secondary education is also four years and divided into two categories as "General High School Education" and "Vocational and Technical High School Education". The entry into these categories is through composite scores obtained from a centralized exam for secondary schools

Higher education system in Turkey is managed by the Council of Higher Education (CoHE, Videsekögrelim Kundur-YOK) which is an autonomous public body responsible for the planning, coordination, governance and supervision of higher education within the provisions set forth in the Constitution of the Turkish Republic and the Higher Education, tax. Both state and non-profit foundation universities are founded by law and subjected to the Higher Education. Law and to the regulations enacted in accordance with it.

Higher education in Turkey completes all post escendary higher education programmes, consisting of short, first, second, and third cycle degrees in terms of the terminology of the Bologna Process. The structure of Turkish higher education degrees is based on a two-tier system, except for dentistry, pharmacy,

medicine and veletriary medicine programmes which have one-left system. The duration of these one-left programmes is five yeasts (300 ECTS) accept for medicine which hasts six years (300 ECTS). The qualifications in these one-left programmes are equivalent to the first cycle (bachelor's) plus second cycle (master's) degree. Undergraduate level of study consists of short cycle (associate's)-(diseast dereces) and first cycle (bachelor's) plus second cycle (master's) degree. Which are awarded after successful completion of full-time two-year (120 ECTS) and four-year (240 ECTS) study programmes, respectively.
Graduate level of study consists of second cycle (master's)-(vilksek: lianas dereces) and first cycle (coloraris)-(colotaria dereces) degree second cycle in the study consists of second cycle (master)-(vilksek: lianas dereces) and first cycle (colotaria-)-(colota

students, ireordical part of the programmes requires additional courses of 60 ECTS credits.

Admission of national students to short and first cycle degree programmes is centralized and based on a nationwide one/two-stage examination(s) conducted by an autonomous public body (Assessment, Selection and Placement Centre-OSYM), Candidates gain access to institutions of higher education based on their composite scores consisting of the scores on the selection examination and their high school grade point averages, Admission to graduate programmes is directly conducted by the higher education institutional restitutions (HEIs) within the frameworks of the publicy available national and institutional regulations. Admission of ficeign students to programmes at all levels of higher education can be done by direct applications of candidates to HEIs based on publicly available and the control of the programmes and levels of higher education can be done by direct applications of candidates to HEIs based on publicly available and the control of the programmes are supported to the programmes and levels of higher education can be done by direct applications of candidates to HEIs based on publicly available on the programmes are programmed.

national and institutional regulations.

The Turkish National Qualifications Framework for Higher Education (TYYG): The National Qualifications Framework for Higher Education in Turkey (TYYG) developed with reference to the QF for European Higher Education Area and the EQF for lifetong learning was adopted by the CoHE in 2010. The framework that been developed as a part of a single national qualifications framework, which would eventually consists of 8 level national framework covering all levels of educations on compeletion of the origingly work at the national level, in which the higher education levels led nevels 5 to 8. The levels of the TYYG with reference to the European overarching qualifications frameworks as well as that to ECTS credits and student workload are shown below.

Diploma Supplement

BURDUR MEHMET AKIF ERSOY UNIVERSITY

Burdur Mehmet Akif Ersoy University 15030 Burdur/TURKEY

Diploma Date:

Diploma Number:

01.07.2022

2.B1.18. Diploma Supplement Number:

This Diploma Supplement follows the model developed by the European Commission, Council of Europe and UNESCONCEPES, The purpose of the supplement is to provide sufficient independent data to improve the histeriational transparency and fair academic and professional recognition of qualification (clipiomas, degrees, certificates etc.). It is designed to provide a description of the nature, level, context, content and the status of the studies that were pursued and successfully completed by the individual named on the original qualification to which this supplement is appended. It should be free from any value judgements, equivalence statements or suggestions about recognition. Information in all eight sections should be provided. Where information is not provided, an explanation should give the reason why.

1. INFORMATION IDENTIFYING THE HOLDER OF THE QUALIFICATION

1.1. Family name(s)

1.2. Given name(s)

Student identification number or code (if available)

181180

1.3. Date of birth (day/month/year)

2. INFORMATION IDENTIFYING THE QUALIFICATION 27.07.1999

2.2 Main field(s) of study for the qualification Name of qualification (if applicable) Beslenme ve Diyetetik, Lisans
 Nutrition and Dietetics, First Cycle

2.3. Name and status of awarding institution
Burdur Mehmet Akif Ersoy Universitesi, Devlet Universitesi, Burdur Mehmet Akif Ersoy University, State University : Same as 2.3 : Turkish

2.4. Name and status of institution administering studies2.5. Language(s) of instruction/examination

3. INFORMATION ON THE LEVEL OF THE QUALIFICATION

3.1. Level of qualification 3.2 Official length of programme

: 4 years,(240 ECTS Credits) : First Cycle (Bachelor's Degree)

3.3. Access requirement(s)

High School Diploma
 Placement through a centralized national university placement examination

4. INFORMATION ON THE CONTENTS AND RESULTS GAINED

: Full-time

Mode of Study

4.2 Programme requirements

Formal education

To train professional dietitian in national and international level

Key Programme Qualification / Key Learning Outcomes of the Programme:

Upon successful completion of the programme, the student;

- 1 To have knowledge of foreign language at intermediate or good level
 2 Understanding and application of basic knowledge and skills within the scope of Nutrition and Dietetics education program
- 3 Interpreting the relationship between nutrition-health and evaluating the results
- 4 To self-improvement in the fields of science and technology with the awareness of lifelong learning
 5 Adopting appropriate behaviors in the awareness of ethical principles of the profession
- 6 To know the profession of dietetics, to follow the developments related to the profession

Cycle
